Earnix Price-It Integration for ISO Electronic Rating Content™ (ISO ERC™)

The Challenge of Staying Current and Competitive

ISO rating content is at the core of insurance carrier policies. Keeping up with frequent updates can be challenging. Manual processes are painfully slow, error-prone, and resource-intensive, while legacy systems choke innovation and customization. This perfect storm results in missed market opportunities, dissatisfied customers, and regulatory headaches. It's time to break free from the status quo and transform operations with agility and precision.

Automate ISO ERC™ Updates and Revolutionize Commercial Lines with Earnix

Envision a streamlined process where ISO rating content updates are automated, deviation strategies are data-driven, and filing documentation is generated quickly from a single source of truth. With the Earnix Price-It Integration for ISO ERC, thousands of circulars—loss costs, rate factors and rules—are seamlessly updated in Earnix. Insurers can maintain their prior deviations, enabling business users to simulate the impact of changes, and adjust rates to seize market opportunities.
