Earnix Copilot

The Future of Intelligent Pricing & Decisioning

Unleash the Power of AI for Operational Excellence

The insurance and banking/lending industries have witnessed a remarkable transformation in the role of AI. Initially focused on automating mundane tasks, AI has now become pivotal in driving core functions such as underwriting, claims processing, and customer service. Earnix has been at the forefront of this AI revolution, continuously developing and incorporating cutting-edge machine learning modeling techniques to improve underwriting, pricing, and rating analytics and processes.

Introducing Earnix Copilot: Your AI-Powered Earnix Agent

Earnix Copilot is our generative-AI powered, digital agent in the Earnix platform, specifically designed to help pricing and underwriting teams supercharge decision-making, driving exceptional business outcomes and unmatched productivity.

Earnix Copilot offers three key features:

Explain

Simplify complex concepts and provide step-by-step guidance on how to accomplish tasks within the Earnix platform. Need help building a model using AGLM? Simply ask Earnix Copilot, and they'll navigate the vast Earnix Knowledge Forum to provide you with comprehensive explanations.

Advise

Receive expert advice on best practices for completing various workflows across the pricing and underwriting lifecycle. Earnix Copilot can help you, for example, with recommending the right roles and responsibilities involved in deploying a rate change into production.

Do

Automate repetitive tasks and streamline your workflow. With Copilot, both data scientists and other practitioners, as well as less technical users, can ask Earnix Copilot to generate Python code to import data, create what-if scenarios, and build models.

Unlock a World of Possibilities with Earnix Copilot

At Earnix, we're committed to providing our customers with cutting-edge solutions that drive success, while maintaining security and governance required in regulated industries. Earnix Copilot is designed to empower insurance and banking professionals with the tools they need to excel in today's dynamic landscape.
