

**Real-Time Pricing
Decisions.
Big Time Results.**

The Digital Transformation is easier with Earnix

Create unmatched customer experiences by delivering highly personalized and perfectly priced offers in real-time. Earnix's end-to-end, analytics-based, decision optimization platform closes the gaps between independent digital processes. Now you can provide the right customer with the right price and the right package at exactly the right time.

Through its real-time pricing solution, Earnix gives banks the power to deliver pricing and personalization - faster than ever before. A solution that is capable of complex modeling, analytically driven automation, testing and deployment. Thanks to Earnix's single end-to-end pricing platform, mishaps and errors caused by numerous disjointed systems can now be a thing of the past. Futureproofing your business starts here.

Use *past* outcomes, to enhance *present* real-time offers, by modeling *future* pricing scenarios

To compete in today's analytical arms race, it's critical to have systems that can operationalize AI quickly. Earnix's pricing and decisioning capabilities include comprehensive simulation, in addition to the operationalization of the entire end-to-end pricing and analytics process.

This includes not only determining the right price, but also enabling automated personalization and alternative deal structure recommendations. As a **SaaS platform**, Earnix's cutting-edge technology is **fully scalable** and provides **24/7 support** and maintenance.

The Earnix Advantage

Proactively serve customers

Analytics-based AI and Machine Learning decisioning capabilities allow you to create personalized and relevant pricing offers, and packages for your customers.

Own market adaptability

End-to-end pricing processes reduce time to market, giving you the power to adjust your market strategy in real-time and make more offers, faster.

Eliminate human error

Synchronized pricing journeys reduce the risk of errors by dramatically reducing the manual transfer of complex data that exists between numerous manual pricing systems.

Achieve IT independence

SaaS functionality enables operation from anywhere and at any time, meeting new work expectations and enabling IT teams to free up time for other important matters.

Meet governance requirements

Built-in reporting tools provide a full record of every action taken, ensuring full auditability so compliance standards can be met with total confidence.

Know tomorrow's prices

Pricing scenarios based on AI and ML simulated models give you the foresight to create future pricing strategies to stay ahead of your competition and meet tomorrow's customer demands.
